DIV. OF OIL, GAS & MINING

RE: ML 44815-Clay and ML 47199-Limestone

Dear Ms. Shumway:

Your late husband had two active mineral leases with the School and Institutional Trust Lands Administration. ML 44815-Clay was held in the name of Sunray Minerals Products, Inc. and ML 47199-Limestone was held solely in the name of Dick Shumway.

I'm writing to ask that you advise me of the succession of ownership of these two leases in the settlement of your late husband's estate. If one or both of the leases were willed to you or you obtained ownership through probate then please provide me with a copy of such documentation. If you know of any others who may have acquired a legal interest in the leases I would also appreciate receiving that information.

Sunray Mineral Products, Inc. is not registered with the Utah Division of Corporations. Registration is required to do business. Meanwhile, I would appreciate any information you may provide me regarding ownership of the company and a list of the names of the company officers.

Current ownership of the above numbered leases must be established before the Trust Lands Administration will consider authorizing any further mineral operations upon the respective lands. Please feel free to contact me at (801) 538-5152 if you have any questions.

Sincerely,

John T. Blake
Mineral Resources Specialist
